

# iTunes Scavenger Hunt

## Go into iTunes Podcasts

### • Activity One

- Go to **iTunes Picks**
- Each of us will explore two of these categories and share back with the group.
- Would this be of interest to teachers? Students? How might this be used in the classroom?

### • Activity Two

- Go to iTunes **Featured Podcast Providers**
- Each one of us will explore two or three of these categories and share back with the group.
- Would this be of interest to teachers? Students? How might this be used in the classroom?

### • Activity Three

- Searching on your own, find **five** podcasts that you could use in your classroom. Fill out the form on the next page. Here are some that may be of interest, depending on your grade level/ discipline/ personal interest. These are just suggestions in case you don't know where to start.
  - **Story Nory**: Elementary
  - **Ted Talks**: middle and high school
  - **Eco Geeks**: science, all levels?
  - **Just Vocabulary**: middle and HS
  - **The Princeton Review Vocab Minute**: HS
  - **Dictionary.com Word Explorer**: upper elementary thru high school
  - **NPR Story Corps**: upper elementary thru high school
  - **Teaching with SMART Boards**: PD for all teachers
  - **One Minute How To**: people explain in 1 minute how to do something
  - **Reaching All Learners**: Apple Summer Semester - features of Mac Operating System that help students with special needs
  - **CNET How To**: See tips for solving tech problems or doing stuff on your own!

## My Five Podcasts

| Name of Podcast | Useful for.... | How did you find it? | Comments/Review |
|-----------------|----------------|----------------------|-----------------|
|                 |                |                      |                 |
|                 |                |                      |                 |
|                 |                |                      |                 |
|                 |                |                      |                 |
|                 |                |                      |                 |

### • Activity Four

- Is iTunes something you might use in your classroom? How? Are there challenges of using this in class? Did you have trouble finding content good for your classroom?
